Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over HOSHIZAKI ELECTRIC CO LTD [HOSHNI] (JP 08256914 A). HOSHNI discloses a beverage dispenser comprising a dispenser housing/front panel 20 supply pipe/nozzle 14 mounted at an upper surface of the dispensing housing 20 and supplying drinks there through; and a drain pan 46 detachably disposed a lower surface of the dispenser and collecting drinks dropped from the supply nozzle 14, wherein a locking unit (upper surface of the lower portion of a door 38 locking the drain pan 46 to the dispenser housing is formed between the drain pan and dispensing housing. See Fig. 1-5 and the basic abstract. HOSHNI discloses the invention substantially refrigerator and water. The Examiner considers the drink dispenser as a refrigerator (as the drinks are refrigerated) and drink as water.

Art Unit: 3744

Alternatively, disclosing a refrigerator and water as a drink is an obvious choice of the individual skilled in the art since there is no criticality or unexpected result from it.

Allowable Subject Matter

Claims 3-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mohammad Ali whose telephone number is 703-308-5032. The examiner can normally be reached on Monday to Friday.
